ALUMINIUM TENDER ALUMINIUM HULL

The **ULTIMATE** are light and robust aluminum semi-rigid tenders, each model is equipped with an aluminum double floor and the flat deck is covered with an non skid EVA pads, for maximum comfort.

The double floor of the dinghy allows water to drain water from the bottom of the hull, the flat deck is covered with a non-slip EVA coating. The boats are in grey aluminum hull, guaranteeing the longevity of your boat.

The high strength marine grade aluminum is powder coated and heated to a high temperature to ensure a smooth, durable and environmentally friendly finish. The bow protection and ultra-wide tube protection give you the peace of mind you need when docking. The pronounced V-shape of the hull provides exceptional stability and passage through the waves. The boats are all equipped with 4 lifting rings for use on davits and a towing ring at the front of the hull.

EQUIPMENT

STANDARD

Aluminum hull with anti-corrosion treatment
Double aluminum floor
Marine grey powder paint
Four lifting rings integrated
Non-skid Eva pads on the entire deck
Tube protection band
Bow protection strip
Aluminum bench on rail
Inflator
Oar
Built-in fuel tank
